\*\*\*DATE CHANGE\*\*\*

The date for our Roseburg event has been changed to September 28<sup>th</sup> and 29<sup>th</sup>, one week later. This event now will not conflict with either the Portland or Medford events. For those of you who have not been there yet; The site at the Roseburg fairgrounds, (which most of you have seen from I-5 and said, nice piece of asphalt) is probably the largest parking lot site in Oregon that is being used for autocrossing. The site is large enough to accommodate runs without reusing any of the course. Also for this year we will hold our IROC on the oval track, so we should be able to have 5 runs each day. Make plans for this event!!

\*\*\*LARISON ROCK # 15\*\*\*

The Rock for 2002 is history. Thanks so much to Bonnie Mueller and Bill Baugh, our event chairs for planning and putting on this event. It takes a lot of people a lot of time as well as a lot of \$ to make this event happen.

Saturday, yours truly, chief of timing, was not a happy camper. The \$6,000 worth of timers, laser

photocells, reader boards, and various computer hookups decided to go south for the weekend. After about 1 ½ hours of cussing, sweating, and even with the help of a computer engineer, we decided retro timing would be OK. When we were gathering and testing the timing equipment (which worked flawlessly in the tests a few days earlier) we decided to take the old timer, just in case. So we quickly pulled out the old timer, and lo and behold, it worked. One difference in the old and new timer is that with the new timer, if the clock stops you can reset finish and the times go on as if nothing happened. With the old timer, when the clock stops, the clock really stops. At this event we had mother nature in the form of butterflies, birds, and other creatures helping break the beam. When this happens, you get a rerun, and John Nilsen just happened to get three practice runs, and just nipped his closest competitor on his last run.

The road itself was the fastest it has been in a couple of years. The warm weather, coupled with Lorin Wamsley's sweeping, provided a good surface. Even a brief rain shower on Sunday didn't slow up the competitors. After a 20 minute rain delay the road was ready to go and the fast times continued. We had seven new members to the Sub 2 Minute club. The new inductees were Tim Steck, Lorin Wamsley, Jennifer Loveday, Dave Heppler, Kip Anderson, Paul Eklund, and Brad Moffett. There were 7 new class records and 16 personal bests.

Thanks to all who participated and especially to those dozens of people whose contributions of time and energy make this event the very best for the past 15 years.

Jim Mueller
