

2018 LARISON ROCK HILLCLIMB

July 7-8

***** Revised Ruling On Neck Restraints *****

On May 28th we were notified that NHA had amended their ruling on neck donuts. If you are in a class that allows a neck donut, and if you are going to wear a neck donut instead of a hans type device, you must also be wearing a “full face” helmet, NOT one with an open face.” Please plan on bringing the correct safety equipment to the Hillclimb.

EESCC conducts this event under a Special Use Permit with Willamette National Forest, and is an equal opportunity outdoor recreation provider.

Note: all drivers will have a work assignment. If you are unable to work we ask that you have someone who can work in your place. We are still, of course, accepting volunteer workers too. Any help is always appreciated.

Also note: NHA requires you to become a member BEFORE you can register for any hillclimb. Please go to their website (below) and sign up BEFORE you register for our event.

Thanks.**

*****Also, please bring oil/fluid absorbent and sealed containers to remove any fuel or oil spills you may have in the pit area. All re-fueling is to be done on the pavement. Take precautions and remove all spills from the site, no matter how small.**

However vehicle drivers participating in Non-DOT approved R-Compound tire classes require the use of an SFI certified HANS-type device (regardless of what tires are actually mounted on the vehicle).**

Additional rules and regulations will be distributed at registration and may be given verbally at the drivers' meeting. You can read most of these in advance on our website at <<http://www.eescc.org>>.
