

EESCC Schedule of Upcoming Events

eesc.org

- August 23** **Course Set up** at VRC. Friday: 5pm. Come by to help get ready for the weekend's auto-x.
- Aug. 24th & 25th** **Event #5/#6 "Redo" and IROC competition.** This will be our last autocross of the season. We looked into adding on another weekend, but all available dates conflicted with previously scheduled events. So...we are finishing up with 6 events only. This means that it takes only 4 events to qualify for a year-end trophy. The IROC competition will take place throughout the day on Sunday, so we are not allowing NFT runs on Sunday. Last day to use any NFT certs is on Saturday. READ FLYER FOR COMPLETE DETAILS

TSD Rallies are a blast. No race car needed -just a car, navigator, a smartphone or android phone with the correct App installed, and a sense of adventure! Simon Levear is the Rallymaster again and he seems to find the most interesting roads. READ FLYER FOR COMPLETE DETAILS.
