We set up a fairly simple autocross course. You (the driver) will be blindfolded (wearing a helmet, *required*) and your Navigator will guide you as you drive the course as quickly as possible.

The speeds are Very Low – believe me –but it is oh so fun! 😊

No race car needed! Best vehicle might be your street car!

Your navigator can drive too- you guide them – see who does it better. (Separate registrations for each driver required)
