

Hi everyone!

I want to let you know that the club is sponsoring the Evolution High Performance Driving School again this year on May 17th and 18th, at Sanderson Field in Shelton, Washington.

As in past years, we will give priority registration to EESCC members before opening it for previous years' participants, and finally, to the general public.

If you are unfamiliar with the program, please go to the Evolution High Performance Driving School website and read all about it. This program is taught all across the country by high quality, experienced competitive autocross drivers, ensuring that you come away from the school with skills that will move you ahead in the sport, regardless of your current level of experience.

For those who have taken the school before, as well as those attending for the first time, lessons are tailored to you, meeting you where you are, challenging and supporting you as you improve your skills. It is an intense, but fun weekend.

We'll be sending out the interest survey soon, and I encourage you to respond as soon as possible, so we know how many other participants we will be able to accommodate...

Due to the size of the venue, the school is limited to 24 participants per day. We have always filled it, so it's best to enter as early as possible.

Please contact me if you have questions.
